

Monday, October 18th - 3:30 PM

1990's: Michael Luethy, Director of Biology, Enko, Mystic, CT

"MU and IPG in the 90's, a great start to a rewarding career in plant science"

Monday, October 25th - 3:30 PM

2000's: Huachun Larue, Global Breeding Reproductive Systems Team Lead, Bayer Crop Science, St. Louis, MO

"Reproductive Biology to Enable Precision Breeding"

WEDNESDAY, NOVEMBER 3rd - 3:30 PM

2010's: Jeongmin Choi, Royal Society University Research Fellow, Crop Science Centre, University of Cambridge, UK

"Plasticity of arbuscular mycorrhizal symbiosis"

Monday, November 8th - 3:30 PM

1980's: Eric Triplett, Department Chair, Microbiology and Cell Science, University of Florida-Gainesville

"Reflections on the influence of the MU IPG on my research, teaching, and administrative career"

Monday, November 15th - 3:30 PM

2010's: Kirby Swatek, Postdoctoral Fellow, Department of Molecular Machines and Signaling, Max Planck Institute of Biochemistry, Martinsried, Germany

"The architecture of ubiquitin signaling"

Monday, November 29th - 3:30 PM

2010's: Joint Seminar

"IPG Scientists in the Business of Making Scientific Discoveries Commercial Realities: Stories from St. Louis's 39N AgTech Innovation District"

- Carola Dowd, Site Operations Lead, CTC Genomics, St. Louis.

"Developing and implementing an operational framework for CTC Genomics: A Brazilian gene editing sugarcane company based in St. Louis, MO"

- Candace Seeve, Director, Laboratory Operations, TechAccel, St. Louis, MO

"Bridging the Innovation Valley of Death to Bring RNAi Biopesticides to Market"
